

# **Portfolio Created By Alexzandria L Ackerson**

## **Letter of intent**

Dear Admissions team,

I am currently looking to change career paths from the financial service industry and explore a career in the creative arts.

I have spent the last, roughly six years successfully working at a bank. I have enjoyed many roles and I am currently an integral member of our sales team as a Personal Banking Associate. The most rewarding part of my current career is bringing joy to my clients during our appointments together.

I would like to take the Foundation of Visual Arts Program at NBCCD to explore my dream career as an illustrative designer or tattoo artist and bring joy to others in another way, through art. I firmly believe that tattoos are a way I can assist others with body acceptance and bringing others joy.

I take a lot of my artistic inspiration from nature, old school tattoos and cartoons. This is reflected in my attached portfolio. I enjoy digital art as well as water colour the most.

I feel in order to effectively render a beautiful illustration or tattoo I need ample time to focus on developing my skills as an artist and have guidance from other artists. The Foundation of Visual Arts at NBCCD would assist me with providing time and guidance to explore and play with a dream I have been carrying with me since I was a 5-year-old child.

Thank you for your time and consideration,

Alexzandria L Ackerson
